The deadline for practice bookings is the 14th of June. On the 17th of June at the very latest, all federations involved will be informed about the preliminary practice schedule, that will also be posted online on the Championship website. Please note the practice payment (bank transfer) deadline which is July 1st when the payment for practice must be at the account of organizer.

Should a federation fail to meet the payment deadline, the booking will be canceled. Starting July 2nd the organizer reserves right to sell the remaining practice time on a first-come-first serve basis. Please book your time slot in writing to jerglova@steno.cz

Note about new rule regarding practice in last 2 days before the competition:

2014 World rules, which apply also to E&A Championships.

1.12: World Championship Site Practice Guidance

Organisers may offer training to teams before the Championships and these can be booked and paid for by Federations. A deadline date (latest 60 days before the scheduled start) should be set by which time all requests must be submitted. After this deadline practice times should be allocated to ensure all countries have an equal opportunity according to their request.

However, as part of paid practice, the last two days immediately before the Championships commence will be organized so that each competitor that has paid for the time will receive an equal amount of time to familiarise with the site. The exact time allowed will be worked out by the Chief Judge according to the finalised entries for the Championships. **The order for familiarisation will be based on the team results from the previous World Championships with the first placed team athletes going first.** Countries with few athletes will be grouped together for more efficient use of the time available to each. Also, there may be groupings by ramp height for efficient use of the facilities.

Confirmed time slot is to be paid to:
