Domaniów Tank

Poland – Domaniów reservoir.

Located near Przytyk (Radom district) retention and recreation reservoir of over 500 hectares, 7 km long and 1.2 km wide, for many locals it is only nearby place for wakeboard. The reservoir was built on the Radomka river (11.5 million cubic metres of water) turns out to be extraordinary a place for quick Sunday trips to the board.

Access

National Road 740 go to Przytyk. From there, go in the direction of Potworów, at the signpost "Domaniów 4" turn left. After few kilometers of driving there will be another signpost "Domaniów 2",

follow the direction. Go through the village Słowików, there will be the label, indicating that you are already in the town. From now on there is just 2.9 km of winding road, turn left when you see the dam in a distance. Only 500 m drive and you are on the spot.

Access for those who are not afraid of rural roads and who want to save time.

Driving along 740 from Radom, before Przytyk, turn at the signpost "Wawrzyszów 11". Go a few kilometers ahead and in Krzyszkowice turn on Młudnice. Then, again a few minute drive, stick to the main road. At the last junction, turn left, there will be a section of sand road which leads you to

the dam. Drive through the dam and at the end turn right. At the crossroad turn right. Driving now the side road (poor quality) on the right you will see the "Palace Domaniowski".

Climate
